

EcoHaven range

Compact. Conscious. Connected.

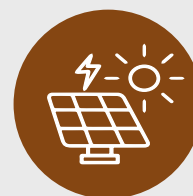

Designed for modern lifestyles, the EcoHaven range offers a refined balance of comfort, sustainability, and flexibility. With three thoughtfully designed floorplans, cohesive façades, service connectivity and curated colour palettes, EcoHaven empowers you to create a home that reflects your values and adapts to your evolving needs. Whether nestled in nature, set beside your primary residence, or used as boutique accommodation, each EcoHaven home is a self-contained sanctuary that prioritises simplicity without compromise. Live smaller, live smarter, and reconnect with what matters most.

Complete Comfort – Elevating the Everyday

EcoHaven is more than a home—it's a future-focused solution for families, developers, and accommodation hosts alike. From accommodating intergenerational living to unlocking rental income or wellness retreat potential, EcoHaven delivers big on design, energy efficiency, and lifestyle adaptability.

Choose your path with confidence, knowing your investment treads lightly on the planet while enriching the way you live, work, and rest.

Bringing your EcoHaven home to life is simple, streamlined, and designed to give you confidence at every step. Follow the process to shape your perfect home.

Step 1

Select your floorplan

Choose from three floorplans, each created to maximise functionality, comfort, and sustainable living.

Step 2

Select your façade

Personalise the look and feel of your home with a façade style that reflects your taste and complements your surroundings.

Step 3

Select your colour palette

Curate your interior and exterior finishes from our professionally crafted palettes to create a cohesive and timeless aesthetic.

Step 4

Select your service connections

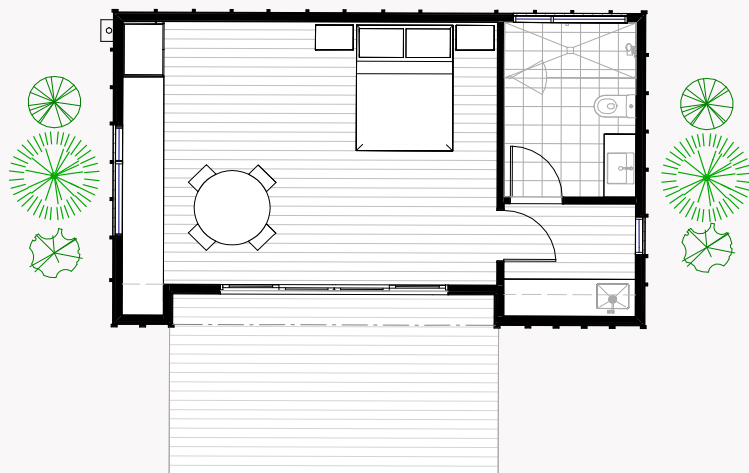

Nominate your service connections to ensure your EcoHaven home integrates seamlessly with your site requirements.

Step 5

Select your Ecoextras

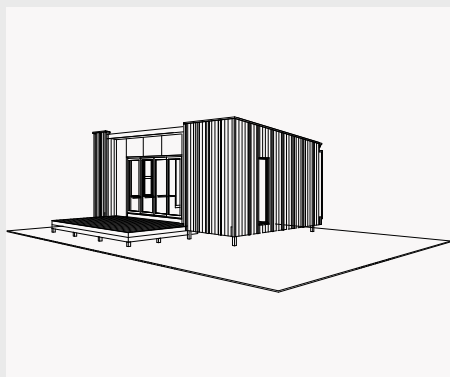

Enhance your home with optional upgrades that add comfort, efficiency, and sustainability.
