

Designed for today with tomorrow in mind

Our new EcoGeneration range presents the pinnacle of inspired modular home design and sustainable living. Featuring 15 unique floor plans to choose from, our EcoGeneration range offers sophisticated design without compromising the natural environment.

Like all Ecoliv homes, our EcoGeneration range is designed for living harmoniously with the natural Australian environment. Taking sustainability to the next level, our new range is climate responsive and operationally carbon neutral. The host of eco-friendly features includes, but is not limited to, a 5.55kw grid-connected solar power system, 10,000 litre water tank, and 250 litre energy efficient hot water system as standard.

Thoughtful design and architectural features support the comfort and wellbeing of the building's occupants, deliver long-term energy efficiency, and protect the natural environment for future generations.

Explore our EcoGeneration designs and floor plans to find the right design for you. Choose from two, three or four bedrooms with a selection of modules including additional living areas, bedrooms, bathrooms and workspaces to suit your family (whatever the size).

EcoGeneration range

Thoughtfully designed, functional and light-filled, our carbon neutral EcoGeneration range scales to suit varying household sizes and occupant needs. From growing children to visiting family or working from home to downsizing, each home allows you to live in comfort, with less waste.
